

FS-19

SLICER & DICER

The FS-19 is a smaller version of the Cove SS-10 and shares many of the same advantages:

- **Slices Fresh vs. Tempered** – No need to temper product to get an excellent slice – Slice fresh (32F-40F) with perfect slice thickness!
- **Fast** – Capacities of 2,000 pounds per hour.
- **Food Safety/Sanitary** – Simple design, no tools needed to disassemble, no conveyors, extremely easy to clean with very few parts.
- **Compact Size** – Small footprint and comes with stainless stand and casters.
- **Reliability** – Over 1,000 slicers installed over the years worldwide!

FS-19 Slicer

FSD-19 Dicer
